

Roman Prigodskii

roman@prigodskii.dev prigodskii.dev github.com/romanprigodskii Moscow, Russia

Education

Grade 11	Letovo School, Moscow Final year, advanced (profile) mathematics track. SAT Mathematics 790 (August 2026). IELTS 7.0.	Graduating 2027
----------	---	-----------------

Honours

1st place	Moscow Olympiad in Economics, Grade 10 division	2025/26
Finalist ×2	All-Russian Olympiad in Economics, national final, Grades 9 and 10	2025, 2026
Prize-winner	Russian Presidential Academy (RANEPA) Olympiad in Economics, final stage	2025/26
Commendation	International Mathematical Modeling Challenge (IM²C), Russian national round 7th of 20 teams, in Letovo's team Elbrus.	2026
Prize-winner ×2	Mathematics olympiads, regional stage, Grades 8 and 9	2024, 2025
School award	Letovo School, best MYP personal project in Mathematics “Collatz conjecture”, written in Grade 9 and published in <i>Young Scientist</i> , 2025.	March 2025

Research

prigodskii.dev/research

Accepted	Testing by betting when the bets are real: an e-value audit of 84 pre-registered hypotheses about a deployed forecaster Sole author. Poster at two NeurIPS 2026 workshops (non-archival): New in ML; E-Values: From Statistics to ML.	2026
Working paper	Measure the instrument first: detection floors for model selection and for LLM judges Sole author. Measures the smallest effect an evaluation could have detected, by refitting under a new seed.	2026
Concluded	Vertex Boxing: the Vertex MMA models moved to professional boxing Tested on 413,279 bouts whether regional and club boxing lines are soft: where priced, they are not. Blended into the opening price, it passed a pre-registered backtest at e = 41.8 against a bar of 20 (2026 holdout).	Jul–Sep 2026

Projects and experience

Live product	Vertex MMA, vertexmma.com A UFC analytics platform with a nine-model forecasting stack and a 10,000-run Monte Carlo simulator. AUC 0.7244 on 664 held-out bouts, graded against the bookmaker's closing line, which stays ahead.	2026–present
Co-founder	Gluline, gluline.com Co-founder of Apri Software L.L.C-FZ in the UAE; engineer and Head of AI for its messenger, released on the App Store on 19 August 2026, then on Google Play and the web, in ten languages.	2026–present
Internship	Alfa-Bank Built Alfa-Romeo, a working concept of the bank of 2035: 93 iOS screens in SwiftUI on a NestJS backend, with a Claude copilot that drafts each action and waits for a yes.	2026
Client work	Zacks to Interactive Brokers execution pipeline Paid work for a third party: each day's Zacks screen turned into an equal-weight book of 25 positions and the orders that reach it at Interactive Brokers. A dry run so far.	2026
Open source	indelible, github.com/romanprigodskii/indelible A Claude Code skill that runs self-study the way a strict tutor would, with a cold recheck two days later and every miss brought back on a schedule. 17,743 lines of Python, 588 tests.	September 2026
Open source	Clipwell, github.com/romanprigodskii/clipwell A native clipboard history for macOS (Swift) and Windows (C#); MIT licensed, no account and no network calls.	2026
Delegate	SPIEF Junior, St Petersburg International Economic Forum	June 2025

Skills

Statistics	E-values and test martingales, anytime-valid inference, walk-forward validation, calibration, power analysis
Modelling	Python, LightGBM, CatBoost, scikit-learn, NumPy, pandas, statsmodels, Monte Carlo simulation
Engineering	TypeScript, React, Next.js, Postgres; Swift, SwiftUI, Kotlin, Compose, C#; FastAPI, NestJS, Docker; LaTeX
Languages	Russian (native), English (working)
